PROJECTS

Food Ordering Website | gurugram

2023 - 2022

The website uses HTML, CSS, and JavaScript for structure and interactivity, with React for dynamic interfaces. Node.js powers the backend, MongoDB manages data, and REST APIs enable integration. It is hosted on AWS, with Git and CI/CD ensuring efficient deployment. Responsive design enhances accessibility across devices, while SEO practices and Google Analytics boost visibility and provide valuable user insights. Together, these technologies deliver a seamless, user-friendly, and efficient web experience.
